

GE JB970SB Oven Timer Help Topic

Introduction

This guide shows you how to use the timer function on the GE Profile Performance Series JB970SB Oven.

Task Completion Steps

1. Press the button on the left of the display labeled 'Timer'.
2. Adjust the hour and minute buttons until the display matches desired timer amount.
 - a. Note: The timer displays hours and minutes, not seconds.
3. Once you set the time, wait until ':' stops blinking.
 - a. Note: To turn off the timer, press the timer button again.
